Det er ikke lykkedes at redde Børsen - forkullet spir ligger på gaden

Brian Mikkelsen · 1.

Administrerende direktør hos Dansk Erhverv | Danmark skal være verdens bedste land at drive virksomhed i |... 50m · 🌐

Det er søndag og tid til refleksion ovenpå en vild og tragisk uge.

En uge, der startede ligesom så mange andre uger, men som tog en drejning tirsdag morgen, da jeg modtog beskeden om, at Børsen brændte.

En forfærdelig og tragisk besked, der blev startskuddet på den værste uge af mit liv.

Men midt i al ulykkeligheden er der også en række ting, som jeg er taknemmelig for.

Jeg er først og fremmest taknemmelig for, at der ikke skete nogen personulykker. Det havde ikke været til at bære.

Jeg er taknemmelig for, at vi fik reddet så meget uvurderlig kunst ud af Børsen, som vi gjorde.

Jeg er taknemmelig for, at tæt på halvdelen af Børsen stadig står i nogenlunde stand, takket være en heltmodig indsats fra verdens sejeste beredskab.

Jeg er taknemmelig for den kolossale opbakning, der har været fra alle i hele Danmark og fra de mange beskeder jeg har fået fra nær og fjern.

Og så er jeg ikke mindst taknemmelig for det kæmpe sammenhold, der har været blandt medarbejderne i Dansk Erhverv.

Det er pga. jer, at vi på rekordtid kunne være up and running igen, så vi nu kan gøre det, som vi er sat i verden for:
